

Clarity

Integrated Payroll, Human Resources and Time & Attendance Software

Robust Reporting and Integration Tools

Clarity offers a versatile, user configurable system with rich, intuitive features such as import utilities, mass update and a built-in Report Writer. Clarity's integration and interface capabilities improve productivity by allowing data transfers with minimal intervention, not only within your Clarity modules, but also with your accounting system, Time clocks, banks, HRDC and CRA. (Please see Clarity Integration Chart at right).

Fully Integrated Modules

- ▶ Clarity is a comprehensive suite of Payroll, Human Resource and Time & Attendance modules, designed for Canada and the US. Each module can work independently or as an integrated system sharing a common database.

Cost Effective Solution

- ▶ Clarity is designed for mid to large-sized organizations looking to implement a very cost-effective, easy to use solution, with a short implementation cycle. Clarity, with its emailing and Internet capabilities, easily handles the requirements of multiple location organizations.

State of the Art Technology

- ▶ Clarity uses MS Windows® client server technology and an MS SQL® database for improved security, performance and reliability. Clarity is scalable, modular, and has multi-user capabilities to grow with your business. By using a common database, Clarity eliminates redundant data entry and simplifies the task of keeping your data current.

Full Suite of Professional Services

- ▶ Clarity also has easy-to-use conversion tools to facilitate migration from existing systems.
- ▶ Clarity's full range of services include remote and on-site support, software updates, customization, training, data conversion / migration and project management.

Clarity encompasses three distinct modules:

Clarity Payroll

- ▶ Unlimited number of user defined earnings, benefits, deductions, taxes, accruals and payroll taxes
- ▶ Direct Deposit (EFT)
- ▶ Cost Allocation and Job Costing functionality
- ▶ Emailing of Pay stubs to employees
- ▶ Exports all reports to different file formats including Excel and PDF
